

January 16, 2024

Dear UCDSB Parents and Guardians,

As students settle back into classes after the winter break, we wanted to make you aware of two **free** math resources that students can use at home.

**Knowledgehook** – This math resource has been provided for use in all Kindergarten to Grade 10 classrooms across the UCDSB and can be used at home at any time. It's an online platform that makes math fun and engaging with games and activities that adjust to your child's pace. It also allows parents and guardians to be more connected to their child's learning.

**Get connected:**

1. Ask your child to log in at [joinkh.com](https://joinkh.com) using their class code (No code? Ask your child's teacher)
2. In the top right corner, click on your child's name and select "Connect Your Parent"
3. Enter your email address

**[Learn more about Knowledgehook and get started!](#)**

**Mathify** – This resource from TVO Learn gives Ontario students free online tutoring with Ontario Certified Teachers. Free tutoring is available from 9 a.m. to 9 p.m., Monday to Friday and Saturday and Sunday from 3 p.m. to 9 p.m. **[Learn more about Mathify and register for tutoring here.](#)**

If you have any questions about either of these resources, please reach out to your school principal directly.

Thank you,  
Upper Canada District School Board
